NOTE 6. Carrier will not be liable for mechanical, frame or structural deficiencies unless through negligence of the Carrier, nor liable for damage to frame or structure caused by overloading of contents loaded inside the units, nor external or internal panel damage or items connected thereto, as a result of the units bowing or twisting due to insufficient structural integrity.

NOTE 7. Units containing articles loaded inside that are not a part of the original factory installed furniture and/or appliances or used units containing or not containing articles loaded inside that are not a part of the original unit's factory installed furniture and/or appliances shall be released to a valuation not to exceed \$.60 per pound. The released value must be entered on the shipping order bill of lading by the shipper in the following form: "The agreed or declared value of the property is hereby specifically stated by the shipper to be not exceeding \$.60 per pound."

NOTE 8. Units without wheels:

- A. The cost of shifting units without wheels to or from the vessel's hook is the responsibility of the unit's owner as directed by the carrier. In Seattle, the owner may supply his own wheels or carrier will arrange for wheels and advance the costs thereof against the shipper.
- B. At destination ports all arrangements for wheels must be made by the unit's owner. Owner must remove units immediately upon discharge from the vessel. Delay or standby time will be charged for at \$527.00 per hour or fraction thereof.
- C. "Crib" designated pedestal stands must be constructed of 2" x 4" lumber. Plywood stands must not be nested. Carrier will transport stands for each unit at no charge.

NOTE 9. All units must be prepaid, except that credit may be extended for a period of seven (7) days provided arrangements for such credit have been made in advance, in writing and such arrangements have been confirmed by the Carrier in writing.
